

Maple Class

Home learning options for Term 2 – Due in by Friday 11th December.

During this term, we will be exploring the theme of volcanoes from a scientific and geographic point of view. We will be using 'Everything Volcanoes and Earthquakes' as our main text.

Over the term, you should complete at least six of these challenges. You can do them in any order, but please only bring work in between Mon 7th – Fri 11th December so that it can be quarantined before it is shared and marked.

In addition to this, we expect you to read at home every day, practise your times tables and spellings each week. The spellings will be written in the reading record every week and your child will know which times tables they are on.

Remember that additional maths and literacy activities can be found via the links on our school website.
